

Advanced Double Stage Filtration in One Unit

+ **Filternox**® dual filtration process is a first in the industry.

+ CFH-MR is specially designed to achieve much finer levels of filtration of water with high dirt loads.

+ CFH-MR series of **Filternox**® are special filters performing two stage filtration in one unique filter body. Based on the characteristics of the water to be filtered, it is possible to reach very fine filtration levels thanks to their efficient self-cleaning capabilities.
