

What Makes a Great Quotation?

AUTOMATIC SELF-CLEANING FILTER QUOTATION GUIDE by:

1. Evaluate the Right Supplier — Not Just Any Supplier

Choosing the right partner is half the success. Evaluating potential suppliers who aren't aligned with your project needs wastes valuable time. **At Filternox®, every quotation we provide is realistic, complete, and built specifically for your application.**

2. Know What to Look for on Their Website

Ensure access to:

- Transparent information of relevant applications, visuals, and real-world case studies.
- Design standards, documentation, and certifications are seamless and upfront.

3. Prioritize Fast, Responsive Communication

When you contact info@filternox.com, expect a same-day reply with additional clarifying questions or a request to complete a short design form. **Once we have the full picture, a Filternox expert will deliver a complete quotation within 24 hours.**

4. What Should Be Inside a Quotation?

Clarity: Every detail must be clearly explained—no guessing required.

Design Specifics: Filter purpose, system layout, materials,

Automation Features: Detailed features of the automation system,

Transparent Pricing: Unit price and total price, including CIF, DAP, or DDP delivery terms, and VAT (unless specified otherwise),

Warranties & Validity: Offer terms and warranty periods.

5. The Filternox® Quotation Standard

Our quotations are built with precision, transparency, and attention to detail, so you always know exactly what you're getting.

Complete Details: Ensures full transparency and zero surprises down the road.

Additional options: Such as FilternoxOS Automation system are offered as optional upgrades.

Key specs included: Such as engine kW value, IP protection class,

Shipping included: Delivery is made to your door (unless Ex-Works requested)

Documentation: Each quote includes a technical datasheet for your engineers.

We Understand Your Challenge

When dealing with specialized technologies, it's natural to want clarity and confidence at every step.

That's why our mission is clear:

To make your job easier, your purchase safer, and your project a success—right from the first offer.
